**Description**

**Lecosav®** (Patrangasav) is a poly-herbal formulation combination with time tested selected medicinal plants having proven efficacy as uterine tonic.

**Pharmacology**

**Acacia catechu** : It contains catechin, taxifolin and catechutannic acid, catechin is biologically highly active. It is used as a hemostatic. Taxiflin has antibacterial antifungal and anti-inflammatory properties.

**Adhatoda vasica** : It contains vasicine, alkaloids and essential oil. It is a rich source of vitamin C and carotene, It acts as Uterine tonic.

**Sida cordifolia** : It contains ephedrin, phytosterols and potassium nitrate. The phytosterols have estrogenic activity. It is useful in diseases like cystitis, leucorrhoea and chronic dysentery.

**Hemidesmus indicus** : It has antibacterial, antiinflammatory and diuretic properties. It is used in urinary disease, leucorrhoea.

**Mangnifera indica** : It is astringent, anthelmintic and used in diarrhoea, uterine haemorrhage and other discharge.

**Berberis aristata** : It contains berberine, oxycanthine, & berbamine. It has anti-inflammatory & antiprotozoal properties. It is used in menorrhagia and leucorrhoea.

**Woodfordia fruticosa** : It contains octacosanol,  $\beta$ -sitosterol, polystachoside, ellagic acid and polyphenols, allergic acid is known to have astringent and haemostatic properties and is useful in leucorrhoea and menorrhagia.

**Indications & uses**

- Leucorrhoea
