Vonix Rx Day Celebration

Nationally 42 Region celebrated Vonix (Vonoprazan) Rx Day by wearing Vonix Polo Shirt to boost-up the Rx generation. It was a wonderful day & Sales colleagues celebrated that day with great enthusiasm.

World Heart Day Celebration

World Heart Day is observed every year on Sep 29th in order to enhance awareness and promote heart disease prevention, detection and control. Keeping this in mind, ACME has organized a scientific session on “Management of Hypertension on special situation” at Feni 250 bed general hospital. By arranging this session, ACME’s contribution in the cardiac sector through knowledge was highlighted.

World **Lung Day** Celebration

Continuing Medical Education on “Access to prevention and treatment for all: leave no one behind” on World Lung Day 2023 at Asgar Ali Hospital. ACME’s RespiCare team was allied as scientific partner .

Factory visit by **Gynae KOL**

It was an immense pleasure to have Dr. Nasima Begum & her family among us and having a chance to present our world class Hormone & Steroid unit. The day was remarkable since Dr. Nasima and her family were extremely satisfied seeing our state of the art facility. Also, we had an opportunity to handover a special token of love to her family.

Scientific Seminar on “Lung Health”

An insightful scientific seminar on “Lung Health” was organized on 2th of September at Eastern Medical College, Cumilla with a collaboration of Bangladesh Lung Foundation. Our beloved Executive Director, Sales & Distribution and Sr. GM Sales & Distribution made the event more eventful and delightful.

Scientific Seminar & Day out with doctors of NICVD

ACME's Cardiac care team had a chance to become the scientific partner & host for a Day out with doctors from National Institute of Cardiovascular Diseases (NICVD) where the esteemed Cardiologists put a discussion about the innovative treatments of cardiac healthcare. Also, they praised about ACME's contribution in the cardiac sector with medications. Furthermore, the Doctors had a pleasant time with their family too.

Foundation of New Solid Dosages Unit (Unit - 07)

Our honorable Managing Director, Mr. Mizanur Rahman Sinha, unveiled the foundation stone of the new Unit-7 at our Dhamrai Plant which is a pivotal step towards meeting our current and future solid dosages production demands. This momentous event signifies our commitment towards growth and sustainability, as we embark on a journey to fulfill our pharmaceutical production requirements with the utmost dedication and compliance.

Inauguration of New Canteen Building

Inauguration of the new canteen for non-management staffs at our Dhamrai plant marked a momentous occasion. Our esteemed Managing Director, Mr. Mizanur Rahman Sinha, unveiled the facility, which promises to enhance the overall canteen management experience and service to the next level. We believe, this signature initiative is another commitment towards providing a more comfortable and homelike environment for our valued workers and staffs, fostering superior well-being for ensuring productivity.

Tree Plantation by our GMP Consultant

Following the successful completion of the **MHRA MOCK Inspection**, a notable moment was marked by an environmentally conscious act. The esteemed GMP Consultant, **Mr. Rob Walker**, planted a tree, symbolizing growth and sustainability. This initiative underscores our commitment to regulatory excellence and environmental responsibility, merging the achievements of a successful inspection with a meaningful step towards a greener future.

The Top Management team of **HSBC** paid a visit to our facility, conducting a comprehensive tour that included our Dhamrai plant premises, manufacturing facilities, laboratories, warehouses, and new project sites. This visit fostered an enhanced communication and strengthened our confidence in mutual partnership, paving the way for smoother present and future collaboration.

Disbursement of Death Benefit Cheque

ACME extends support to the families of deceased employees by offering financial assistance with aims to alleviate the financial burden arises during such difficult times.

ACME always demonstrates its commitment to caring for its employees and their loved ones, ensuring their well-being even in the face of adversity.

Training on “Lean Manufacturing”

A two-days long training program on 'Lean Manufacturing' was arranged in Dhamrai Plant. This program was designed to benefit employees from various divisions and functions within our Plant Operation having primary goal of increased productivity and improve the overall organizational efficiency. We strongly believe such learning drive shall bring agility in our day to day operational activities. Lean Manufacturing concept has enabled our colleagues positively towards our continuous commitment and effort towards boosting workplace productivity and overall operational efficiency.

Training on “Quality by Design”

A three-days long training program was arranged focusing on 'Quality by Design,' involving employees from diverse divisions and functions within ACME's Plant Operations, aimed at elevating quality standards in ACME and to stimulate the quality impact in day-to-day operational activities for enhancing better quality design as a part of bringing quality mindset among all.

Training on “Process Validation and Product Lifecycle Management”

A training program on “Process Validation and Product Lifecycle Management” has been organized for a group of employees working in various Divisions and Functions under the Plant Operation to stimulate the PV & product lifecycle management in day-to-day operational activities. Where Mr. Rob Walker, GMP Consultant, facilitated the session as the key resource personnel.

Awareness program on “Hypertension and Diabetes management” at Dhamrai Plant

Dr. Al-amin and Dr. Sarjina Hossain Rean, our Factory Medical Officers, organized an awareness program on managing Hypertension and Diabetes for both management and non-management staff at the Dhamrai plant.

Awareness on “Firefighting, Fire Prevention, Rescue and First Aid”

The Factory Administration Division organized a comprehensive one-day training program focused on 'Firefighting, Fire Prevention, Rescue, and First Aid.' This event included a hands-on training session for both management and non-management personnel.
