

Oral Solution

Virmax Vet

Ideal Mixture of Phytogetic Extracts

Only for the use of animals

Compositions

Each 100 ml contains extracts of *Andrographis paniculata* 10 g, *Tinospora cordifolia* 5 g, *Azadirachta indica* 2 g, *Ocimum sanctum* 4 g, *Allium sativum* 3.5 g, *Asparagus racemosus* 3.5 g, *Withania somnifera* 3 g, Flavour & excipients q.s.

Pharmacology

***Andrographis paniculate* (kalomegh):** A rich source of andrographolide, a powerful antiviral, antibacterial, antioxidant and anti-inflammatory compound. It supports liver health, enhances growth performance, and helps reduce cold and flu severity naturally. ***Tinospora cordifolia* (Giloy/Gulancha):** Enriched with alkaloids, glycosides, steroids, phenolics, and terpenoids that deliver strong antiviral, immunomodulatory, and antioxidant effects. ***Azadirachta indica* (Neem):** Contains azadirachtin, a potent bioactive compound that disrupts viral replication and enhances immune defense. Exhibits strong anti-inflammatory, antioxidant, antifungal, and insecticidal properties for overall health protection. ***Ocimum sanctum* (Tulsi):** Eugenol is a major constituent is well known for its potent antimicrobial, anti-inflammatory and antioxidant. ***Asparagus racemosus* (Shatavari):** Rich in steroidal saponins (shatavarin) and flavonoids with potent antioxidant, anti-inflammatory, and immunomodulatory actions. It offers antibacterial protection against pathogens like *Vibrio cholerae*, *Shigella dysenteriae*, and *Staphylococcus aureus*. ***Withania somnifera* (Ashwagandha):** Rich in withanolides, potent bioactive known for their strong anti-inflammatory, antibacterial, antitumor, and adaptogenic properties. Other key compounds such as alkaloids, flavonoids, and sitoindosides contribute to its anti-stress, immunomodulatory, and antioxidant effects, enhancing resilience and overall vitality. ***Allium sativum* (Garlic):** Allicin are the major bioactive compound known for its potent antiviral, antibacterial, anti-inflammatory, and antioxidant properties, along with strong hepatoprotective activity that supports liver health and overall immunity.

Indication

- Act as antiviral and antibacterial
- To enhance the immune system, reducing risk of infection and diseases
- To enable to fight against the onslaught pathogens
- Act as anti-inflammatory, adaptogenic and antioxidant
- Reduces severity of cold & flu
- Hepatoprotective, supports organ function & growth stimulator
- Improves digestion and nutrient utilization
- Natural way to protect from stress & improve animal's performance efficiently
- Provides excellent supportive therapy in viral diseases such as **FMD, LSD, PPR, Ranikhet, Gumboro, Avian influenza, IB, IBH, Poultry pox, and Duck plague** etc.

Dosage & administration

Only for the use in poultry/animal feed.

Route of administration: For oral administration only.

Poultry

Chicks, Growers & Finishers:

Prevention: 1 ml in 2-3 liters drinking water

Treatment: 1 ml in 1-2 liters drinking water.

Layers & Breeders: 1 ml in 1.5-2 liters drinking water.

During severe case, 1 ml per liter of drinking water for 3-5 days.

For Cattle, Buffalo, Sheep, Goat & Horse

Large animals: 20-30 ml orally once daily.

Small animals: 10-15 ml orally once daily.

Dog & Cat: 2-5 ml orally once daily.

Or as directed by registered Veterinarian.

Contraindication: Contraindicated in birds/animals hypersensitive to any ingredients of Virmax Vet.

Warning & precaution: None.

Side effects

Common: None, Rare: None.

Use in pregnancy, lactation & laying birds

In recommended dosage, it is safe to use in pregnant, lactating animals & laying birds.

Drug interaction

With medicine: None.

With food & others: None.

Overdose

The ingredients of Virmax Vet are natural & no risk in overdose is found.

Withdrawal time

Meat, Milk & Egg- 0 (Zero) day.

Storage

Store below 30° C temperature and dry place, protected from light.

Keep out of reach of children.

Pack Size

100 ml & 500 ml bottle.
